

Country Link is a national network of informal, county-based social groups.

 Want to meet new friends and have fun?

 Enjoy the countryside and rural activities?

 Single, divorced, married?

 Relocating or just need a change?

Then **Country Link** can help.

Country Link, an offshoot of Young Farmers, was founded in 1985 and meets regularly during the week and at weekends.

Activities arranged are varied and we produce a programme so we can inform each other of future events.

National Weekends are held in the spring and autumn. They take place in different parts of the country, hosted by the local Country Link group.

With a packed programme, these weekends are very popular and it is a chance to meet friends old and new.
