Please Note: It is important to let people know if you are attending an event or not as it can be frustrating not knowing how many to cater for or book for etc. For this reason we are asking you to ring or text whether you ARE or ARE NOT going to attend. It should not have to be up to the event organiser to have to contact everyone and this will no longer happen. Also please stick to the deadlines given if you leave it too late to let someone know the event may already have been cancelled or no space left. Thank you.
